Introduction:

An Investment in Knowledge pays the best interest-Benjamin Franklin

We the Caf-Fin Team are a firm believer of the above lines, and hence make small investments every day and strive to get the best returns, be whatever the hurdles rate.

The Finance SIG of SIBM, Caf-Fin, an initiative driven by the students, is committed to cater to finance related interests of our students. Our Mission is to enrich and enhance the knowledge and to equip the students with the necessary armour to build a successful career in the world of Finance. In this regard, we have conducted numerous events such as the Newsletter, Competitions, and Workshops etc. Given below is a detailed description of the events we hosted.

Weekly newsletters: There's always an alibi for not reading the ET, in spite of Mansi mam's repeated reminders to do the needful; hence we come to the rescue and make the life of our fellow SIBMians simpler- by compiling the "18 pages of the daily economics times newspaper for the entire Week" and translating it into an abridged version of not more than 5 pages entailing the latest happenings in the fields of Business, Economic and International Affairs.

Finance workshops by collaborating with **FinShiksha** and conducting sessions which threw light on the different career profiles in finance for our juniors and a workshop about Excel and Industry Valuations which will help us ace our internships.

Competitions: where we provide a platform for our students to compare and analyse where we stand in competing with students from IIMs, NMIMS, SCMHRD etc. We have conducted the below competitions-

- **Case Latte-The Case Study Competition** on Payments Banks, was conducted in collaboration with **SECC**. This was aimed to improve the status of financial inclusion in our country. We had participants from B-Schools across the country.

- **Mocafino-The Mock Stock Competition** to assess the Stock Market Skills, we collaborated with **FinThings**- an online virtual trading platform, and provided live trading platform to our participants giving them real-time experience of a finance manager.
- **Expresso-The Mock Parliamentary debate** was an intra-college competition, on the topic- **“Should Religious institutions like temples, churches, Mosques etc. remain Tax exempt?”**

- **The Bloomberg Championship**- to polish skills of our students so that they can make the best use of the terminals.

SEED Kit which has been crafted meticulously to equip our juniors with all the imperative concepts in finance. The Seed kit of Caf-Fin is so complete in itself that Students don't have to worry much after completing SEED syllabus. In addition, we also supplement the kit with the epitome of all current affairs, so that they don't just raise their voice in a GD, but raise their argument.

SEED Lectures also provide insights into the domain of Finance and ramp up their preparation. The Finance 101 sessions by the seniors made the Alien Accounting statement look so simpler that anyone can make sense out of it.

Mock Interviews We clear all your doubts, help in HR blanks and make SIRP an enriching and memorable journey so that no one would feel little hiccups while facing the company's real interviews.

Material for CRP: In collaboration with **RSMT**, we have also drafted a material encompassing the current affairs related to the domain of Finance, on topics such as- Corporate Bond Market in India, NPA issue etc.

Road to Internship We collaborate with our seniors to clear all doubts regarding the internships, and provide the necessary training with Excel and PPTs so that this prep can act as a catalyst to their efforts for a PPO.

Because of the wealth of events and the quality of our work, we believe that we have fared well in our endeavour to equip, enrich and enhance the level of knowledge of our fellow students in Finance.
